DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 31-34 and 36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 31, "the power supply output" lacks antecedence.

In claim 32, "the power supply voltage" lacks antecedence.

In claim 34, "a switching waveform" should be changed to --said switching waveform--.

In claim 36, "the predetermined maximum current limit level" lacks antecedence.

Applicants are requested to thoroughly review and amend the claims to correct other informalities and terms which lack proper antecedent basis.

Allowable Subject Matter

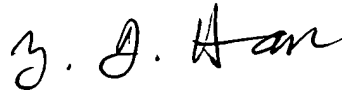

3. Claims 29, 30, 35-42 and 64-78 are allowed.
4. Claims 31-34 and 36 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
